28 August 2025

Dear Sir and Madam,

Application for proposed non-material change to the A66 Northern Trans-Pennine Development Consent Order 2024 (SI 2024 No. 360)

The Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011: Regulation 7(3) – request for exemption from consulting certain persons on the above application

On 21 June 2022, National Highways submitted an application for a development consent order (DCO) for the A66 Northern Trans-Pennine project. The A66 Northern Trans-Pennine Development Consent Order 2024 (SI 2024 No.360) (the Order) was subsequently made by the Secretary of State for Transport on 7 March 2024. Documents relating to the decision stage can be found on the Planning Inspectorate's national infrastructure website.

National Highways intends to make an application for a non-material amendment to the A66 Northern Trans-Pennine DCO. The application will seek authorisation to make the following changes to the project (NB: Changes 1 to 5 and 8 are proposed on Scheme 0405; Change 6 on Scheme 0102; and Change 7 on Scheme 03):

Change 1 – Cross Street

Cross Street is a local road (C3030) in Kirkby Thore, passing Kirkby Thore Primary School, then heading northwards towards Newbiggin. As the alignment of the new A66 will cut across Cross Street, the Order authorises the realignment of Cross Street and the provision of a new overbridge crossing the new A66.

The proposed change comprises the realignment of the overbridge, approaches, and the connecting junctions and private means of access. The lateral alignment of Cross Street will be adjusted beyond the lateral limits of deviation (LoD) for Work No. 0405-7,

which are currently 3m to the east, and to the west to the extent of the fine dashed green line shown on the works plans.

The Priest Lane junction with Cross Street will be relocated beyond the lateral LoD for Work No.0405-6C, which is to the east to the extent of the fine dashed green line shown on the works plans and to the west by 3m.

The new Bridleway between the realigned Cross Street and Bridleway 336/018 will be relocated beyond the LoD for Work No. 0405-8, which are 3m to the east and the west to the extent of the fine dashed green line shown on the works plans.

Proposed Change 1 (Cross Street) therefore comprises the realignment of the centreline for each of Work Nos. 0405-7, 0405-6C and 0405-8. The current LoD (as stated above) would then apply to the realigned centrelines for those numbered works.

Change 2 – Green Lane

Green Lane comprises part of Footpath 336/017 and is also a private means of access to land north of Kirkby Thore. The Order authorises the realignment of Green Lane to the west of the existing alignment and provision of a new overbridge crossing the new A66 and reconnecting to the existing alignment of Green Lane to the south. The realignment of Green Lane would provide a replacement private means of access and a diversion of the existing public footpath.

The proposed change comprises keeping the current alignment of Green Lane and constructing the new Green Lane overbridge on the existing alignment of Green Lane. The realignment from that authorised by the Order will be beyond the current lateral LoD of Work No. 0405-9 which are 3m either side of the centreline.

Proposed Change 2 (Green Lane) therefore comprises the realignment of the centreline of Work No. 0405-9. The current LoD (as stated above) would then apply to the realigned centreline for this numbered work.

Change 3 – Long Marton

Long Marton is a local road (C3004), south-west of Long Marton village. It connects the village with the existing A66. The Order authorises the realignment of Long Marton to the south of its existing alignment and a new underpass crossing the new A66.

The proposed change comprises realigning Long Marton Road to reduce the span of the bridge, which will also reduce the amount of third party land required for its delivery. This realignment will also necessitate a reduction in the design speed to 85kph (50mph). The realigned design extends beyond the current lateral LoD of Work No. 0405-16, which are 3m either side of the centreline.

Proposed Change 3 (Long Marton) therefore comprises the realignment of the centreline of Work No. 0405-16. The current LoD (as stated above) would then apply to the realigned centreline for this numbered work.

Change 4 – Access Track at Kirkby Thore

The Order authorises the formation of a new access track providing a private means of access and a footpath connecting the realigned Cross Street with the realigned Green Lane on an alignment located to the north of Kirkby Thore and to the south of the new A66.

The proposed change comprises removing (i.e. not constructing) the new access track between the realigned Cross Street and realigned Green Lane, instead creating a new section of permissive path along the bottom of the southern embankment of the new A66 between the realigned Cross Street and Green Lane.

Proposed Change 4 (Access Track at Kirkby Thore) therefore requires the revised provision for public rights of way and private means of access between Green Lane and Cross Street to be shown on an updated version of Sheet 2 of the Rights of Way and Access Plans.

Change 5 – B6542 and Spitals Farm Access

To the south east of Spitals Farm, the existing A66 will be de-trunked and re-classified as the new B6542, which, in addition, will comprise a length of new highway (also to be classified as the B6542), running largely adjacent to the new A66. The Order authorises the stopping up and replacement of a private means of access to Spitals Farm, via an underpass beneath the new A66 and the re-classified as the B6542.

The proposed change is to the alignment of the new B6542, moving it up to 8 metres closer to the new A66. This exceeds the lateral LoD for Work No 0405-4A, which are 3 metres either side of the centreline.

Proposed Change 5 (B6542 and Spitals Farm Access) therefore comprises the realignment of the centreline for Work No. 0405-4A. The current LoD (as stated above) would then apply to the realigned centreline for that numbered work. This change would also involve a change to the replacement private means of access to Spitals Farm, insofar as the width of the underpass (beneath the de-trunked A66 / new B6542 and the new A66) would be reduced.

Change 6 – Kemplay Bank

The Order authorises a new section of A66 to be constructed to pass beneath the new Kemplay Bank junction arrangement, tying into the existing A66 alignment.

The proposed change is an amendment to Work No. 0102-1E by relocation of the centreline by 2.5 metres to the north, up to chainage 11+400. The new section will be given a new work number (Work No. 0102-1D-A). The standard LoD for linear works (as set out in article 7 of the Order) will apply to the new Work No. 0102-1D-A.

Change 7 - B6262 Combined Public Rights of Way and Private Means of Access

The Order authorises new public rights of ways (PRoW) and private means of access (PMAs) between the junction of the improved A66 with the B6262 and the Lightwater Watercourse.

The Proposed Change involves the realignment of various lengths of combined PRoW and PMA:

- on the south side of the A66, running between the B6262 and the site of the former Llama Karma Kafe, and providing access to the Countess Pillar which is located between them (comprising part of Work No. 3-7A, and both Work Nos. 03-9A and 03-9B; and
- crossing over the A66, then running along the north side of the A66 in an easterly direction (comprising part of Work No. 03-7A and part of Work No. 03-7B).

Additionally, the proposed change on the south side of the A66 comprises cycle track along the entirety of the route between the site of the former Llama Karma Kafe, the Countess Pillar and the B6262, amending the previously consented proposals which comprised mainly cycle track, but which also included a short length of footpath on the approach to the Countess Pillar.

Part of the realignment of Work No. 03-7A involves its commencement point which is proposed to be relocated 8 metres to the south of the junction of the B6262 with the A66 (in comparison with the commencement point in the previously consented proposal).

Beyond that, proposed Change 7 includes further changes to the alignment of Work No. 07-3A, which at some points exceed the lateral LoD for Work No. 03-7A, which is 3 metres either side of the centreline. Proposed Change 7 therefore includes a partial realignment of the centreline for Work No. 03-7A, to which the standard 3 metre lateral LoDs (as set out in article 7 of the Order) would subsequently apply.

Amendments of the same nature are also proposed to the alignment of the centreline of Work Nos. 03-7B, 03-9A and 03-9B.

Change 8 – Powis House Private Means of Access

The Order authorises the provision of a new footpath and private means of access (the Trout Beck Bridge south shore maintenance track) between the existing A66 and the proposed A66, and the construction of a new footpath passing beneath the Trout Beck viaduct and connecting to the existing Footpath 341/017.

The Proposed Change comprises realigning the new footpath and private means of access approximately 20 metres to the northwest. Such realignment is required in consequence of the shortening of the Trout Beck viaduct pursuant to a detailed design change (which is the subject of a separate request for authorisation, submitted to the Department). The proposed re-alignment of the footpath and private means of access

would exceed the current lateral LoD for Work No.0405-14, which is 3 metres to the north and south of the centreline of this numbered work.

Proposed Change 8 (Powis House Private Means of Access) therefore comprises the realignment of the centreline of Work No. 0405-14. The current LoD (as stated above) would then apply to the realigned centreline for this numbered work.

Pre-application engagement with relevant persons

National Highways has undertaken pre-application engagement on the proposed non-material changes with affected landowners, Westmorland & Furness Council (W&FC) and through the Community Liaison Groups established in the consultation phase of the DCO application. Each Community Liaison Group includes local councillors from affected wards, parish councillors, community representatives, businesses, and residents.

Online sessions were held with the Penrith to Kemplay, Kemplay Bank to Temple Sowerby, Kirkby Thore to Long Marton, and Appleby to Brough Community Liaison Groups in November 2024, in partnership with W&FC. In addition, the invitation was extended beyond the route of the project to all 55 parish councils that are either on the route or may be affected by the project.

An additional online session was held relating to Proposed Change 8 (Powis House Private Means of Access) in August 2025.

These events enabled attendees to see the proposed non-material changes and ask any questions of the designers. There were no specific questions raised regarding the proposed non-material changes.

As part of the non-material change application process, National Highways, as the applicant, must consult on the proposed changes to provide an opportunity for interested parties to make representations about the non-material change application. Regulation 7(2) in the Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011 requires the applicant to consult 'parties who have the benefit of the made order'; parties who were notified of the application for the made order under section 56 of the PA2008; and any other party who may be directly affected by the changes proposed.

This letter is a request under regulation 7(3) of the Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011. Regulation 7(3) states that an applicant need not consult a specified person or authority if they have obtained the written consent of the Secretary of State to exclude such person from the scope of the consultation on the non-material change application. The Regulation enables National Highways to seek your consent not to consult certain parties on the proposed non-material change application. Annex B sets out who we propose to consult

and who we propose not to consult. Annex A sets out our reasons for consulting certain parties, and our reasons for seeking consent not to consult certain other parties.

National Highways intends to submit its application for a non-material change to the Order by the end of summer 2025. We therefore respectfully ask that a decision is made in respect of this request for an exemption from consulting certain parties as identified in Annex B below by 25 September 2025 please.

Should you have any queries about this correspondence, the proposals or the consultation, please contact Hannah Coates at A66NTP@nationalhighways.co.uk.

Yours sincerely

DCO Project Manager for the A66 Northern Trans-Pennine Project

Annex A

National Highways undertook extensive pre-application consultation on the original application. The pre-application engagement and consultation is set out in the consultation report submitted with the application for the scheme. Following the original application being accepted for examination, National Highways publicised the accepted application and notified the relevant prescribed bodies; local authorities; those with an interest in land and a number of other consultation bodies in line with the requirements of s56 of the Planning Act 2008. Overall, 235 relevant representations were submitted in relation to the original DCO application.

In response to the previously proposed non-material change application submitted during the DCO examination, the following interested parties made representations that addressed matters local to the currently proposed non-material change application. We are intending to include all of these interested parties in our consultation on this Non-Material Amendment application. Those interested parties comprise:

- Change 1 (Cross Street)
 - Sports England
- Change 2 (Green Lane)
 - None
- Change 3 (Long Marton)
 - Barbera Lynn Iverson
 - Taylor Family
- Change 4 (Access Track at Kirkby Thore)
 - None
- Change 5 (B6542 and Spitals Farm Access)
 - Andrew Michael Addison
- Change 6 (Kemplay Bank)
 - Barrie Cheetham
 - Cumbria Constabulary
 - Cumbria County Council
- Change 7 (B6262 Combined Public Rights of Way and Private Means of Access Limits of Deviation)
 - The Ramblers, Penrith Group
 - John Harvey Slack
- Change 8 (Powis House Private Means of Access)
 - Colin Thomas Dent and Yvonne Julie Dent

The table below sets out the reasons why we will consult certain parties on the non-material change application (i.e. those parties with a 'yes' in the column headed 'to be consulted on the proposed change application' in the tables in Annex B) and why we are proposing not to consult certain parties on the non-material change application (i.e. those parties with a 'no' in the column headed 'to be consulted on the proposed change application' in the tables in Annex B).

Reasons for consulting certain parties on the proposed non-material change application	Reasons we are proposing <u>not</u> to consult certain parties on the proposed non-material change application
Prescribed consultees who may have an interest in this proposed non-material change application.	Prescribed consultees we don't consider may have an interest in this proposed non-material change application as it is unlikely to be relevant to them. (Further information in the relevant paragraph below)
Relevant statutory undertakers who may have an interest in this proposed non-material change application.	Statutory undertakers we don't consider may have an interest in this proposed non-material change application as it is unlikely to be relevant to them. (Further information in the relevant paragraph below)
Relevant local authorities who may have an interest in this proposed non-material change application.	Local authorities that are unlikely to have an interest in this proposed non-material change application as it is unlikely to be relevant to them. (Further information in the relevant paragraph below)
Those with land interests within proximity of the project who may have an interest in this proposed non-material change application.	
Other interested parties from the examination of the original DCO scheme who may have an interest in the proposed non-material change application.	
Parties having benefit of the made DCO	

In determining relevant **prescribed consultees** who may have an interest in this proposed non-material change application, we have excluded those where their area of responsibility is not relevant to the nature of the proposed change either through being geographically too far removed from the proposed non-material amendments to be directly affected by them, not responsible for the area where the change is taking place or not relevant given the nature and small scale of the proposed amendments. The same principle was adopted in respect of the non-material amendments submitted during the DCO examination in March 2023.

In determining relevant **land interests**, **interested parties** and **statutory undertakers** who may have an interest in this proposed non-material change application, we have excluded those whose interest is greater than 250 metres from the DCO Limits of

Deviation for Schemes 01-06. This is because those parties' interests are geographically too far removed from the proposed non-material amendments to be directly affected by them, given the small size and scale of the proposed amendments. The same principle was adopted in respect of the non-material amendments submitted during the DCO examination in March 2023.

In determining the **local authorities** which should be consulted, it was noted that all of the proposed non-material amendments take place solely within the administrative boundary of Westmorland & Furness Council. The changes are considered too inconsequential to be materially relevant to any other neighbouring council and therefore no others are proposed to be consulted. Similarly, it is proposed to consult only those parish councils directly affected by or immediately adjacent to a non-material amendment.

We have only included organisations and persons once in Annex B below, to avoid duplication across multiple tables, in the interests of clarity. The organisations and persons have been included in their most relevant table only.

Annex B

Prescribed Consultees

The following table lists those parties notified of the application for the made Order under section 56 of the PA2008 and explains whether it is proposed to consult or not to consult them on the non-material change application. The decision for each is based on the reasons given in Annex A.

Relevant Prescribed Consultees		Consulted on the original DCO application	To be consulted on the proposed change application

Other interested parties from the examination of the original DCO scheme who raised matters that are relevant to the proposed non-material change proposals

During the DCO examination, the below interested parties made representations that addressed matters local to the previously proposed non-material change application. We are intending to include these same parties in our consultation on this forthcoming Non-Material Amendment application.

Name
Sports England
Barbera Lynn Iverson

Taylor Family
Andrew Michael Addison
Barrie Cheetham
Cumbria Constabulary
Cumbria County Council
The Ramblers, Penrith Group
John Harvey Slack
Colin Thomas Dent and Yvonne Julie Dent

Parties having benefit of the made DCO

National Highways Limited (company number 09346363) whose registered office is Bridge House, 1 Walnut Tree Close, Guildford, Surrey, GU1 4LZ is the only party having the benefit of the made DCO. As the applicant, it is not intended to consult National Highways on the proposed change application.
