Appendix B. Examining Authority's Question 12.0.14

Table B-1 - Further details on the assessment of cumulative effects

Receptors (property count)	DMRB impact magnitude - Short-term (Opening Year 2027)	DMRB impact magnitude - Long-term (Opening Year 2027 to Future Year 2042) Scenario S	Conclusion of significance of environmental effect. Scenario S	DMRB impact magnitude - Long-term (Opening Year 2027 to Future Year 2042) Scenario R	Conclusion of significance of environmental effect. Scenario R	Mitigation Considerations	Commentary on the difference between Scenario S and Scenario R
Stoke Road (A4019 to Bishops Cleeve) (5)	Moderate Increase Daytime - Moderate Increase at 3 properties Daytime - 1 increase to above SOAEL from DMOY Night-time - Minor Increases at 3 properties above SOAEL	Minor Increase Daytime – 1 increase to above SOAEL from DMOY Daytime – Minor Increases at 2 properties above SOAEL Night-time - Minor Increases at 5 properties above SOAEL	Significant adverse effect	Minor Increase Daytime – 1 increase to above SOAEL from DMOY Daytime – 2 Minor Increases above SOAEL Night -time – 2 increases to above SOAEL from DMOY Night-time - Minor Increases at 5 properties above SOAEL	Significant adverse effect	Noise barriers have been considered but would not possible due to access requirements. GCC are investigating measures to mitigate noise on Stoke Road, but not part of this Scheme.	The additional traffic in the cumulative traffic Scenario R leads to additional properties with a 1dB increase in noise above the SOAEL, when compared with Scenario S.
Stoke Orchard Village (66)	Minor Increase Daytime - 22 increases to above SOAEL from DMOY Daytime - Minor increase at 42 properties above SOAEL Night-time - 6 increases to above SOAEL from DMOY Night-time - Minor Increase at 45 properties above SOAEL	Minor Increase Daytime - 22 increases to above SOAEL from DMOY Daytime - Minor Increase at 44 properties above SOAEL Night-time - 9 increases to above SOAEL from DMOY Night-time - Minor Increase at 58 properties above SOAEL	Significant adverse effect	Minor Increase Daytime - 23 increases to above SOAEL from DMOY Daytime - Minor Increase at 43 properties above SOAEL Night-time - 41 increases to above SOAEL from DMOY Night-time - Minor Increase at 63 properties above SOAEL	Significant adverse effect	Noise barriers have been considered but would not possible due to access requirements. GCC are investigating measures to mitigate noise on Stoke Road, but not part of this Scheme.	The additional traffic in the cumulative traffic Scenario R leads to two additional properties above the SOAEL when compared with Scenario S.
Fiddington, Natton and Ashchurch (9) Including Monks Lane and Homedowns	Negligible Change	Negligible Change	No significant effect	Night-time – 7 increases to above SOAEL from DMOY Night-time - Minor Increase at 9 properties to above SOAEL	Cumulative significant adverse effect	Noise barriers have been considered but would not possible due to access requirements and limited space. No mitigation measures have been proposed, effect is unavoidable.	The additional traffic in the cumulative traffic Scenario R leads to a significant adverse effect, 1dB+ above the SOAEL, which was not observed in Traffic Scenario S
Gloucester Road to Stoke Road, Tredington (24), Orchard View (4)	Negligible Change	Negligible Change	No significant effect	Minor Increase Daytime - 7 increases to above SOAEL from DMOY Daytime - Minor Increase at 7 properties above SOAEL Night-time - 15 increases to above SOAEL from DMOY Night-time - Minor Increase at 28 properties above SOAEL	Cumulative significant adverse effect	Noise barriers have been considered but would not possible due to access requirements and limited space. No mitigation measures have been proposed, effect is unavoidable.	The additional traffic in the cumulative traffic Scenario R leads to a significant adverse effect, 1dB+ above the SOAEL, which was not observed in Traffic Scenario S
Sheldon Cottages (2)	Minor Decrease Daytime - Minor Decrease at 2 properties below SOAEL	Negligible Change	No significant effect	Negligible Change	No significant effect	Noise barriers have been considered but would not possible due to access requirements. GCC are investigating measures to mitigate noise on Stoke Road, but not part of this Scheme.	There is no change at this location
New House Farm, Moat Lane (1)	Moderate Increase Daytime - Moderate Increase at property	Minor Increase Daytime - Minor Increase at property, below SOAEL	No significant effect	Minor Increase Daytime - Moderate Increase at property	Cumulative significant adverse effect	Noise barriers have been considered but would not possible due to access requirements and limited space. No mitigation measures have been proposed, effect is unavoidable.	The additional traffic in the cumulative traffic Scenario R leads to a moderate adverse effect, which was not observed in Traffic Scenario S
The Green and the road to Elmstone Hardwicke (15)	Negligible Change	Negligible Change	No significant effect	Daytime - Moderate Increase at 15 properties Night-time - Moderate Increase at 6 properties Night-time - 8 increases to above SOAEL from DMOY	Cumulative significant adverse effect	Noise barriers have been considered, but would not feasible due to access requirements, low raffic flow, individual properties, and limited space. No mitigation measures have been proposed, effect is unavoidable.	The additional traffic in the cumulative traffic Scenario R leads to a significant adverse effect, 1dB+ above the SOAEL, which was not observed in Traffic Scenario S
M5 Barn Farm (1), Informal Traveller site (at least 1)	Minor to Moderate Decrease Daytime - Moderate Decrease at the Informal Travellers Site Daytime - Minor Decrease at Barn Farm above the SOAEL Night-time - Moderate Decrease at the Informal Travellers Site Night-time - Minor Decrease at Barn Farm above the SOAEL	Minor Decrease Daytime - Minor Decrease at all properties, above the SOAEL Night-time - Minor Decrease at all properties, above the SOAEL	Significant beneficial effect	Minor Decrease Daytime - Minor Decrease at all properties, above the SOAEL Night-time - Minor Decrease at all properties, above the SOAEL	Significant beneficial effect	The Scheme includes: Barrier M4 - 130m long, 2m tall reflective noise barrier adjacent to Barn Farm Barrier M5 - 150m long, 2m tall reflective noise barrier adjacent to the informal travellers site	There is no change at this location
