

Department for Transport**THE M5 JUNCTION 10 DEVELOPMENT CONSENT ORDER 2025 (“THE ORDER”)****THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017****NOTICE OF A DECISION ON AN APPLICATION FOR AN ORDER GRANTING DEVELOPMENT CONSENT FOR EIA DEVELOPMENT**

The Secretary of State for Transport (“the Secretary of State”) gives notice under regulation 31(2) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 that a determination has been made on an application made by Gloucestershire County Council (“the Applicant”) for development consent under the Planning Act 2008 (“the 2008 Act”) for Environmental Impact Assessment development.

The Order grants development consent for the alteration of the existing Junction 10 of the M5, to provide a new grade separated roundabout junction with new slip roads northbound and southbound, to realign the existing A4019 and B4634 and construct a new West Cheltenham Link Road. The Order aims to improve traffic flows and network connections across Cheltenham as well as supporting economic growth.

In addition, the Order would contain compulsory acquisition powers in relation to land and rights that would be required for the purposes of the development.

The Secretary of State has determined, following consideration of the report of the Examining Authority who conducted an examination into the Application, that development consent should be granted and has decided, therefore, to make an Order under section 114 (115 and 120) of the 2008 Act.

The statement of reasons for deciding to make an Order granting development consent, which has been prepared by the Secretary of State under section 116 of the 2008 Act and regulation 31(2) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017, containing the content of the decision, the requirements imposed in connection with the development, the main reasons and considerations on which the decision is based including relevant information about the participation of the public, a description of the main features to avoid, reduce and offset any major adverse effects of the development and information regarding the right to challenge the decision and the procedures for doing so, is published on the Planning Inspectorate’s website at:
