1. Introduction

1.1. Purpose of this document

- 1.1.1. The Examining Authority has requested the submission of a Land Rights Tracker.
- 1.1.2. This Tracker explains the status of negotiations with affected persons and will be updated during the examination.
- 1.1.3. This tracker adopts the example provided by the Examining Authority (ExA) from the Nationally Significant Infrastructure Projects: 2024 Pre-application Prospectus, 16 May 2024, last updated 16 December 2024. ([Pre-application Land and Rights Negotiations Tracker template.docx](#)), with minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible. Section 3 below explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains the function of each column.
- 1.1.4. This Nationally Significant Infrastructure Projects: 2024 Pre-application Prospectus (Dec 2024) states:

“The development of a pre-application Land and Rights Negotiations Tracker will help the Inspectorate to understand the issues, monitor progress and target advice at the pre-application stage. Experience shows that unresolved land and rights issues can complicate and extend the duration of post-submission stages. The Inspectorate’s support will help the applicant to prepare and optimise the Compulsory Acquisition and Temporary Possession evidence within the application, potentially giving rise to fewer Examining Authority written and oral questions and smoother, possibly faster, post-submission stages. The pre-application Land and Rights Negotiations Tracker will provide the basis for a detailed post-submission Land Rights Tracker which will be requested by the appointed Examining Authority.”

The applicant’s role: *To prepare mature and robust evidence to support the application for compulsory acquisition and temporary possession powers in the draft DCO. This evidence will be developed around a pre-application Land and Rights Negotiations Tracker, which will ultimately form part of the submitted application. The Land and Rights Negotiations Tracker will provide a live and consolidated view of the status of negotiations and inform pre-application interactions between the applicant and the Inspectorate. The applicant will be frank/ upfront about barriers and the likelihood of individual and/ or collective land and rights issues affecting the smoothness and duration of the examination. The applicant will prepare mature versions of the draft DCO, draft Land Plans (including special category land and crown land information), draft Book of Reference, draft Statement of Reasons and draft Funding Statement for review*

by the Inspectorate within the timeframes agreed in the pre-application Programme Document.

Inspectorate's role: *To elevate the status of the Land and Rights Negotiations Tracker as key evidence informing pre-application interactions with the applicant. The Inspectorate will monitor and query the status of issues identified in the Land and Rights Negotiations Tracker with the applicant, issuing advice on the impacts (and mitigations) for post-submission stages."*

- 1.1.5. The Land and Rights Negotiations Tracker was not submitted at the time of Development Consent Order (DCO) submission by National Highways (the "Applicant"), as this information was contained within Annex B of the Statement of Reasons (**APP-008**) and due to the status of the Application being so close to DCO submission when the new guidance was published. Updates to negotiations have been captured within this Tracker and this will continue to be updated through the course of examination, where necessary; and the Applicant does not intend to make further updates to Annex B of the Statement of Reasons (**APP-008**).
- 1.1.6. This Tracker, alongside the Statement of Reasons (**APP-008**) provides mature and robust evidence to support the Applicant's case for compulsory acquisition and temporary possession; and demonstrates how the Applicant has resolved / attempted to resolve issues in the negotiation of acquire land by agreement" makes us compliant with Planning Act 2008: 'Guidance related to procedures for compulsory acquisition of land' (DCLG, September 2013) (the CA Guidance).

2. Description of rights

- 2.1.1. The Land Plans (**APP-012**) show land and rights over which compulsory acquisition and temporary possession powers are sought, and the powers being sought are also listed in the Book of Reference (**AS-016**).
- 2.1.2. On the Land Plans, the plots are coloured to show the type of power that is required over each plot of land to deliver the Project:

Colour on Land Plans	Type of Acquisition
Pink	Permanent Acquisition of all interests in land
Blue	Permanent Acquisition of Rights over land
Green	Land to be used temporarily

140	Warwickshire County Council	Category 1	(a) Permanent	1/1c	Y	N/A	Letter sent to land interest by National Highways on 23 May 2025 with regards to acquisition of land by negotiation. Letter sent by email to Adrian Hart and Nick Dauncey at Warwickshire County Council. <i>28 May 2025</i> Email from Warwickshire County Council requesting more information on the proposed acquisition of plot 1/1c, querying why the carriageway of the B4428 is required for permanent acquisition, and asking what the implications of the acquisition would be for Warwickshire County Council during the duration of the works, and any future maintenance/improvement of the B4428. Warwickshire County Council requested a phone call with the Applicant to discuss plot 1/1c. <i>29 May 2025</i> Phone call between the Applicant and Warwickshire County Council to discuss land interests in plot 1/1c. The Applicant initially proposed permanent possession of each of the separate freehold interests in plot 1/1c Plot 1/1c is made up of the surface of Brinklow Road the subsoil under the surface of the A46, and the flying freehold of the A46 main line. Warwickshire County Council is the occupier of Plot 1/1c, excluding the subsoil interest. Warwickshire County Council and the Applicant agreed that the surface of Brinklow Road would now only be subject to temporary possession. The remaining interests in plot 1/1c would be permanently acquired. Plot 1/1 remains pink on the Land Plans (PD1-001). The wording in Schedule 8 of the draft DCO (REP1-002) submitted at Deadline 3 has been amended to state that for plot 1/1c, such of plot 1/1c as is vested in Warwickshire County Council, the land would be subject to 'Temporary access to facilitate works to the A46 as it crosses Brinklow Road'.	The Applicant understands that Warwickshire County Council are satisfied with the land acquisition proposals.
