Good afternoon

The junction in question has caused even more chaos for the locals recently due to other roadworks and cycle lane construction in the area.

It has become part of the diverted route for Clifford Bridge Road traffic and it is a nightmare trying to turn right there towards the A45 ...

Could an access road to UHCW be included in the plans too?

A new access road and the junction improvements would/will have a massive impact on both local and through traffic using the A46

I appreciate that Natural England have to have their say too, but let hope any problems that they foresee will be discussed and resolved and the junction work can be started.

Regards

Christine Sunter-Storey
