

Due to the proximity of Slip End to the M1 motorway, the take off and landing of aircraft over Slip End and the 4500 vehicles that come to slip end for off airport parking, all these factor constitute to poor air quality. In addition we are blighted by aircraft noise, from take off and landings. All these factors adversely effect the resale value of our property. We get all the problems of the airport and no positives by way of reduced council tax. All these adverse effects will only increase if the planning application is granted so please refuse on the basis of the health and welfare of the people affected.
