Subject: Comments Re. TR020001 - London Luton Airport Expansion
Date: 30 August 2024 12:10:18

[REDACTED]
Good Morning,

[REDACTED], Martin Farrell [REDACTED] received a letter yesterday regarding the Luton airport expansion. This letter invites comments from residents regarding the expansion.

He would like to say the following:

"I live underneath the flight path for Luton Airport. Currently, the noise is just about bearable. I am concerned that an expansion and/or rise in flights over my property will be not only detrimental to my health but to my property.

[REDACTED] The increase in pollution is a concern for me. Furthermore, when flights go over the house, the house physically vibrates. My front door rattles and my windows have deteriorated. I have lived in this house for nearly [REDACTED] Under the flight path the entire time and have no doubt the airport has contributed to the above issues with my [REDACTED] and my property. I am not necessarily against the expansion but I would like something to be done to at least remedy the problems the airport has created for me over the last few decades ie assist me with doors/windows for the predicted increase with noise and vibrations".

Kind Regards

Erin Farrell on behalf of Martin Farrell
