Subject: An airport has to be put back here .

I am so angry at the possibility of Manston and it's heritage being g taken away from this country..we are losing our identity with everything and these wonderful squadron boys did everything to keep us all safe here and we are so proud of them. These memories should live forever and the museum letting us all know what this airport meant to us all. So much of our heritage has been trodden down...I don't see any other country giving up their history and wonderful history...i e Italy ..could you see that happening ..it disgusts me. We have a beautiful country that everybody wants to see and trailer parks arnt one of the main attractions. I live in the Kent countryside and it has to be preserved for all to see. We want Manston back as an airport even if it is initially only for commercial flights and the honour and memory of what we sacrificed to keep up all here safe.
