Subject: Objection to reopening of Manston Airport
Date: 15 February 2019 13:30:58

I am writing with regard to the proposed DCO of the existing Manston Airport land and the proposal to reopen as an cargo and passenger service including night flights.

I live directly under the flight path of the old Manston Airport.

I totally object to the reopening due to the number of flights being proposed, especially night flights.

When Manston Airport was open, there was a lot of 'unexpected' night flights, which had an adverse effect on our lives due sleep deprivation and the noise they created. At the time I would send an email of complaint after every flight.

I believe that by reopening the airport it will have an adverse effect on the local and surrounding areas, due to noise pollution, air pollution, sleep deprivation and health issues relating to a poor quality of life.

Over ten years ago there was a near-miss at Manston where a plane went off course and was flying very low over the town. Will we have to live in fear that this could happen again?

Regards

Lorraine Pullman
