---

Thank you - very helpful re. the filter facility.

The rest of your answer is generalized and does not really address my question. However I shall take it that you do not want me to spend time finding further noise/pollution reports from the period when the airport was operational. Please note that impact was flagged up by the lead examiner as a very important factor right at the start of the process - and that I made the offer to look for more evidence of the real effects of aviation at the site.

Kind regards

Alan Welcome

Dear Mr Welcome

Firstly, you can use the filter function (in the grey box located on the left hand side of the [documents screen](#)) to view only the Deadline 6 submissions. Select 'Examination' and then 'Deadline 6' or alternatively click [here](#) to view the 69 documents that have been published.

Interested Parties (IPs) will not receive unilateral responses to questions raised in Examination submissions; however, please take comfort that your arguments have been fully considered by the Examining Authority (ExA). It is for the ExA to decide whether, following receipt of evidence, further probing and testing of the evidence is warranted, either at hearings or through written questions.

The ExA is grateful for all IPs who take the time to engage during the Examination.

Kind regards

**Subject:** Deadline 6

Thank you for your communication re deadline 6

On your website can you please segregate the deadline 6 submissions from all the previous submissions to make it just a bit easier for us to keep track of the process?

Do you read all submissions? My most recent one had a very specific question regarding making more historic noise/pollution information available to you. You have not responded. Should I assume you are not interested and so I should not bother? Please understand that providing well researched submissions supported by proper evidence in a format acceptable to you is not something that happens with a snap of the fingers.

Kind regards
