Subject: Reopening of airport
Date: 11 June 2021 21:39:24

It is of great importance to Thanet and surrounding areas that the airport is reopened! Local employment is on its knees, and the locality makes it ideal for freight as it was before! Passenger flights at a later date no doubt but for most a desperately needed hub for freight! The dual carriageway network of roads offers the quick distribution of freight without the problems that both London Heathrow and Gatwick suffer do to the high passenger turnover in normal circumstances! Quicker turnarounds and Riveroak providing training school and expertise screams investment with Manston! It was good enough for 100 years it's good enough now!

We need this desperately, our area needs the regeneration!
