I am not good with words but the reopening of Manston airport is a must for many reasons. Here are a few from my mind.

1. Regeneration of very poor area of the UK.
2. Other airports in the UK want more passenger terminals. Therefore freight needs to go some where.
3. Jobs, not just for now but for years to come.
4. Road congestion is horrendous, more air freight capacity would help alleviate this.

Manston Airport is desperately need.

Trevor Green.
