Dear Sir/Madam.

I fully support the reopening of Manston Airport as this is in an area of severe economic and employment hardship.

The opportunities that this project will bring can transform this area into an vibrant area which most will benefit.

Brexit is proving we will need the extra freight capacity, both now and certainly in the future, which is at the heart of this development.

Once the COVID-19 crisis is over, we will see the return of full capacity at Heathrow and Gatwick, so Manston will be the ideal airport to relieve congestion.

RSP have committed to making Manston the most eco-friendly airport ever built, with the best education and technological establishments to provide further opportunities.

Thanks for your time.

Yours faithfully

David Pawley-Smith.
