Dear Manston Airport Case Team

I write in support of Manston Airport re-opening as a freight hub, rather than the land being used for yet more housing. I live in Ramsgate, and the area cannot support more housing as it is impossible to get an NHS dentist, and GP's lists are full. There is also a shortage of schools, especially primary schools.

Thanet will benefit from a new airport freight hub. It will provide much needed jobs for the area. A new railway station (Thanet Parkway) is under construction near the airport, which will give a fast train service to the centre of London.

I do hope that your decision will be in favour of re-opening Manston as an airport.

Yours sincerely

Mary Bradley-Cox
