Subject: For the attention of the Manston airport Case Team
Date: 21 June 2021 16:06:58

Thanet now has a large house building plan underway so we do not need any more houses on the Manston Airport Site. We need JOBS !

- . Freight has a more direct exit from Manston making it quicker to get fresh produce to market .
- . Planes are now cleaner with less noise.
- . Manston can have links with universities and colleges for engineering courses.
- . Employment for the area when jobs are created.
- . Manston will be a green airport with solar, electrical and hydrogen power.
- . Faster access to London and beyond.

Thank you Heather Gunton and Family.
