Attn of Manston Airport Case Team

I attach a link to a report commissioned by Thanet District Council to assist them to determine if Manston Airport might have a financially viable future as an operational airport.

TDC remit;

“The Council requires an independent assessment advising whether or not it is possible to run a viable and economically sustainable free-standing airport operation from Manston. The Council is seeking advice from an independent expert aviation consultant who can make this assessment within the context of the national and international air traffic market, the viability of airport operations at a national and international scale and likely future developments in airport operations.”

The Review was completed by Avia Solutions in 2016 prior to the DCO application.
