Subject: Reopening of Manston Airport
Date: 31 October 2021 14:28:40

Hi to the Planning inspectorate.

It is in my opinion, that the reopening of Manston Airport is a must, it is not just a matter for the South East of Kent, but the whole country, it should not be decided by, a few selfish Anti's, or the local Council, to waste £10,000 of rate payers money.

This Airport, is a way of putting Thanet, to the forefront, of a great economic future, it will be the first Zero Carbon Airport, to be Built, plus Planes are now Carbon friendly, with Electric planes now being invented.

With what we have seen, goods having difficulty being delivered, from far off Airports, every Airport is needed, in all parts of the county.

It is not fare, that our young people are deprived, of decent Jobs that, come with the reopening of Manston as an Airport Hub, coupled with a properly functioning Harbour.

It is in my opinion that Manston Airport's opening as a Hub, is a must, for the future of Thanet.

Mr. C D Sutton
