Subject: Objection to the development of an airport at Manston
Date: 18 November 2021 14:19:45

Hello,

I have objected on multiple occasions over the last few years, but would like to re-state that I am completely opposed to this development.

All of the detailed arguments for and against and associated evidence is already on record. In summary:

The lengthy, professional and transparent process completed by the Planning Inspectorate agreed with my view that this plan is neither viable or needed, and would cause great harm to this area.

Several reports by aviation experts have also demonstrated that this site is not suitable for these plans. The most recent of these commissioned by the Secretary of State and forming the basis of this round of re-consultation.

Besides the above, I have no doubt about the following two points; that the negative environmental, climate and local health impacts are enough on their own to deem this project to be out of the question, and if the development were given the go-ahead it would, once again, fail as a business.

Regards -Adam Sharpe.
Margate resident.
