Good Morning,

Further to my recent correspondence to you regarding the RSP application re Manston planning application. I have noted in the press information regarding the Secretary of State, Grant Shapps, action and hobbies. He has acted against industrial development at Coventry Airport, supported by the Prime Minister and housing development at Chalgrove because it interferes with his hobbies must make him unsuitable to make the final decision on the Manston Planning Application. He has already gone against the decision by four very experienced Inspectors that the development should not be approved. Was this decision influenced by his interest in private light aircraft aviation?

It is not acceptable that the SofS over-rides the interest and well being of the residents of Ramsgate who are badly served by our political system. The MP for Thanet North states that the Manston development is needed to provide jobs. There are hundreds if not thousands of unfilled vacancies in Thanet. Manston is not needed to provide jobs. Our MP in Thanet South has supported the RSP application, a company in the west of the United States over the interests of the residents of Ramsgate who are his constituents, thousands of whom live under or close to the flight path into the airport.

The SofS and our MP in Thanet South have been photographed with a group of supporters of the planning application. They supported the application without any realisation of its effect on the residents of Ramsgate. There is no evidence that they have changed their views. I would ask the SofS and his advisers to consider the effects of this proposal on the lives, jobs, health and wellbeing of the residents of Ramsgate.

Finally if you wish to investigate the quality of proposed management of RSP I suggest you study

[REDACTED]

Yours,

Bill Williamson,
