Dear Sirs,

Please can an end to put to the saga of an airport that is not needed or wanted by the majority of local people to bed,so that the focus can be put on developing the local areas for tourism and creating real opportunities for local people, without the noise, pollution and destroying tourism in the area.

If the airport were to open as a cargo hub, thousands of lives will suffer as a result,this must not be allowed to happen.

Regards,

Terry Smith
