Dear Sirs,

We acknowledge receipt of the Consultation letter, as well as of the Applicant's response and Environmental Appraisal dated 12th October 2026. NATS had no objection to the proposed change to Schedule 2, Part 1, Requirement 2 (Time Limits) which would increase the time period within which the development commenced from five years to seven years. Accordingly it has no comments to make in respect of this latest Consultation and response.

Regards
