[REDACTED]

I would like to record my opposition to the planned second runway as a matter of principle. At a time of when we should be seeking to mitigate against further global warming this takes us in the opposite direction and is at odds with governments Netzero aims.

Speaking as a resident of Fordcombe we are already overflowed by too many flights. I am not persuaded by any argument that a second runway will do anything other than increase that traffic with all the negative impact that has on local communities.

Yours faithfully

R.J.Blade [REDACTED])
