Dear Secretary of State,

Thank you for giving us the opportunity to respond to the above application and I use 'us' to show that this letter represents the views of me and my wife, [REDACTED]. We oppose the application.

Any expansion at Gatwick will result in increases in many types of pollution, all of which are undesirable. The resultant air and noise pollution will have impacts upon health in the immediate area; undesirable anyway and NHS services are already under massive pressure.

The M23 and its surrounding roads are congested at peak times already. An expansion of Gatwick will make matters worse.

We believe 'levelling up' should be more than a catch phrase and that any expansion of air capacity, over and above the agreed Heathrow third runway, should be made in the North with the accompanying employment and business prospects.

Please reject this application.

Yours sincerely,

Keith and Susanna Masters.
