Dear Sir Madam,

Re. application by Gatwick Airport Northern Runway Project .

I whole heartedly object to this planning application on the grounds of the project being detrimental to quality of life of those having to live nearby . The added noise/light and environmental pollution is unacceptable .

We live close to Luton Airport and the increase in air (and road) traffic has had a major negative impact on the local townsfolk . PLEASE no more noisy , low flying planes over our houses - we have had enough !

S. Charrington
