Dear Planning Inspectorate,

I'm just an ordinary member of the public, so putting my concerns in the legalese that is no doubt expected is well beyond me. However, it should be obvious to anyone that a development that allows an extra 100,000 flights a year will put a great deal of green-house gas into the atmosphere. In addition, Gatwick is mainly used for tourism, i.e. people spending money abroad; how does that help our economy?
