Subject: North Terminal expansion concerns
Date: 28 April 2025 14:29:12

Dear Sir/madam,

Ref: 20041546 application for expansion

After reading GALs very detailed replies to concerns over the impact of a second runway at the North Terminal.

I read in a paragraph relating to "natural beauty for the area", that there is the "possibility " for funding its restructuring. I have heard this term before in legal matters, it means nothing. There needs to be a plan for said funding, independent environmental groups, asked to be part of the plan, as a definite action, all listed with time frames.

I believe Gatwick Airport is the worst performing airport in the UK, so I'm still wandering why consideration for growth is being given to the project, when they cannot operate properly what they already have?

I am not satisfied that they can deal with bigger growth when they are in such a weak position currently.

I look forward to hearing on further decisions.

Kind regards,

Julia
