Subject: Fwd: Gatwick expansion - local aircraft noise concerns
Date: 02 May 2025 16:30:19

Good afternoon

This is to inform you that as a local resident directly impacted by Gatwick flight activity, I don't support expansion of Gatwick Airport. However if expansion is approved, may I request please that you ensure that there are strict environmental, noise and other controls to prevent the unacceptable aircraft noise levels as we had to endure here prior to the Covid pandemic.

I do agree with the Environmental Agency's noise insulation and surface access proposals but the proposed amendments by the Secretary of State to the limits do not balance the benefits of growth of the aviation with the need for noise reduction by local residents. Please can the limits be reduced further as soon as possible and can the government implement other noise reduction measures, in particular implementing a ban on night flights as at other airports. These limits should apply all year round and we also need to put plans in place for reducing noise limits in future.

Thank you for your consideration

Richard Gray
