To whoever this may concern.

I'm writing again in response to the expansion of Gatwick airport. If this is not the right team please forward onto the correct one.

For all of the obvious reasons i.e more noise, air, traffic pollution, chem trails and disruption to existing wildlife and green belt area I strongly object to the Northern runway planned in the immediate future.

I moved to Charlwood village for its quaint, charming and lovely rural location. If the expansion goes ahead it will ruin the whole atmosphere that the village currently has and will inevitably become a town just like the surrounding ones.

It will be a lot busier and pollution will increase extensively. The roads are not equipped to deal with the extra traffic. The council cannot cope now with repairing roads that are full of potholes let alone extra strain being put on them from MORE traffic!

The existing wildlife will disappear and the green belt will disappear with it. I understood that the green belt was protected land and cannot be used for building on but conveniently it seems this only happens when it suits the government!

For the reasons given above I strongly disagree with the expansion of the Northern runway!

Regards
Shelley Frost
