Dear Sirs

I am writing as a local business owner with a keen interest in the local economy & Gatwick's part in that.

The proposed changes address the problems that PINS had with the original application by creating more opportunities for public transport alongside infrastructure improvements for the region. It's good to see the environmental & noise concerns being addressed & these should allow the Secretary of State to bring forward this vital scheme for the good of the local economy.

Finally it's interesting to note that the important economic contribution of Gatwick is being recognised by both Crawley and Reigate & Banstead Borough Councils in their submissions around Devolution; the use of the Northern Runway can only enhance that economic contribution.

Kind regards

Jeremy
