[REDACTED]

Dear Sirs,

I am writing to object to the proposed second runway at Gatwick.

The local infrastructure will not support any expansion at Gatwick.

At the moment the local roads are gridlocked and the rail system is struggling.

With Heathrow and Gatwick so close to each other, any expansion will add to all the problems and also provide additional pollution.

Additional flights will no doubt bring additional staff which will mean more houses will be required in an already overpopulated area.

This is not the right place to increase the aviation business.

Yours sincerely

Virginia de Zoete
