Letter of support for London Gatwick's Northern Runway plan

Gatwick Diamond Business is a business membership organisation which has been supporting our region's business community for over 70 years and promoting and supporting the Gatwick Diamond economic region, with Gatwick Airport at its core as a key driver of our economy.

On behalf of Gatwick Diamond Business (gdb), I am pleased to express our full support for London Gatwick's Northern Runway plan and think that London Gatwick's response to the additional conditions should be accepted, and consent granted by 27 October.

London Gatwick's proposal for additional traffic tests ahead of dual runway operations beginning, are designed to avoid traffic congestion by limiting airport related cars on the road until their highway improvements are built. This proposal as an alternative to the Secretary of State's suggested test of achieving a specific level of public transport use before dual runway operations, will achieve the same result, but use means which are within the airport's control. This will enable Gatwick to invest in this critical project whilst avoiding any unforeseen highway impacts.

On behalf of Gatwick Diamond Business, I look forward to receiving positive news of the application and to providing all the support we can for the implementation of this initiative if approved.

Best regards
