I am writing to express my strong concerns about proposals for expansion of Gatwick which appear to make a mockery of the planning process by introducing a third scheme outside of the examination time frame. I believe that, as a result, noise and surface transport should be re-examined and that the planning process be halted and re-instigated, to allow for full and transparent examination of the facts to ensure Gatwick Airport's new runway does not cost the planet, communities and the public purse dearly.. Gatwick cannot be allowed to manipulate policy and planning law to achieve a new runway.

I suffered so much loss of sleep from the Night flights over Wadhurst which were introduced some years ago that I had to move house. At times there are planes going over every few minutes. I believe that they should be stopped completely as happens with Heathrow. Planes fly very low and lower their undercarriage at exactly this point.

Best wishes

Beth (Martin)
