Dear Ms Wilkinson

I refer to your letter dated 2nd January 2025.

Abbotsley Parish Council considered this at its meeting held 16th January 2025.

The Parish Council unanimously agreed that it wishes to request information for the Environmental Statement. More detailed information is required regarding the environmental impact and sound. Also required will be details on wildlife routes including the treatment of existing badger setts and other wildlife in the area to be developed. An ecological assessment should be carried out.

Yours sincerely

Katie Bates
