This is the third letter that I have written to object to the plans for the West Midlands Interchange. It appears that the first two letters don't count which I find worrying and so I hope this email will be taken into consideration.

My objections are : -

- a) using green belt land - the offer of a sanitised park won't help the wildlife and won't replace the natural countryside.
- b) traffic flow - any trouble on the M6 and the A5 and the A449 become gridlocked and a large increase in traffic would exacerbate this problem.
- c) pollution - we have the M54 the south, the A449 to the east and the A5 to the north with all the pollution being blown across the area and heavy lorries, staff driving to and fro to work will only make this worse.

I understand that both our MP and our local Council are opposed to these plans.
