Dear Sirs

RE: "Northampton Gateway Rail Freight Interchange Project
- NON-MATERIAL change TR050006"

I am writing to you as I am very worried about the proposed amendment above. This amendment is obviously 'MATERIAL', if this is allowed to go through other developers in the area would be encouraged to follow suit resulting in increased HGV traffic and pollution.

Blisworth already suffers a large volume of traffic through its narrow streets daily, past our Primary School and Doctors' Surgery, particularly when vehicles are diverted through due to problems on the M1 which happens regularly.

I have lived in Blisworth for 52 years and although our By-Pass was approved and opened in 1991 I have watched our streets become a 'rat-run' everyday. We urgently require an up-dated traffic survey assessing the impact of noise/pollution on our and surrounding villages before any decision is made.

Please take our concerns seriously.

Yours sincerely
