Subject: Change to planning request by Segro at Northampton Gateway
Date: 25 September 2022 19:25:08

We are residents of [REDACTED] and live in close proximity to both the M1 and Segro Northampton Gateway development. We already suffer from noise and air pollution that seriously affects our health and quality of life. We are very concerned with Segro planning request, that will inevitably affect the area, with even more H.G.V lorries, noise, traffic chaos and pollution. Please take our concerns and worries very seriously. Ian and Elizabeth Anderson, [REDACTED].
