[REDACTED]

Dear Sir/Madam

Despite the furore of opposition to this project, and my close proximity to the development site I am in full support of this project.

Hinckley and its surrounds need investment. Young people living here need jobs with good pay and training prospects. Local businesses need the surety of wealth creation to stay profitable and viable.

I am of the view that any impact felt by residents can be mitigated through intelligent use of weight and vehicle type restrictions. I also feel that the area MPs who show vehement opposition would not be doing so if their questionnaires didn't show outright NIMBYism.

I therefore request that your organisation finds a viable, fair, and proportionate way to offer support for a development that will do much more good for this area than any perceived short term discomfort.

Best wishes,

Andy Logie.
