1 Guide to the Application

1.1 Guide to the Application Overview

Purpose of this Document

- 1.1.1 This Guide to the Application document summarises the structure of the application for development consent made by Southern Water Services Limited (hereafter referred to as ‘the Applicant’) to the Planning Inspectorate for the Hampshire Water Transfer and Water Recycling Project (‘the Project’). It explains what the documents are and provides an understanding of the structure of the Applicant’s application, and the principal contents within each volume of documents.
- 1.1.2 This document functions as an accessible guide to the Project, the Applicant and the application, and will assist those in reviewing the application documentation. It is intended that the document be updated as the examination of the application proceeds.

1.2 Hampshire Water Transfer and Water Recycling Project

The Project

- 1.2.1 The Project comprises the construction, operation and maintenance of the following components:
- Water Recycling Plant and associated pumping stations.
 - Pipelines between Budds Farm Wastewater Treatment Works and the Water Recycling Plant site.
 - Pipelines between the Water Recycling Plant site and Bedhampton Springs, connecting to pipelines being delivered by Portsmouth Water between Bedhampton Springs and Havant Thicket Reservoir.
 - Pipeline between the Water Recycling Plant site and Otterbourne Water Supply Works.
 - Above Ground Plant comprising Intermediate Pumping Stations and Break Pressure Tanks located along the Pipeline between the Water Recycling Plant site and Otterbourne Water Supply Works.
- 1.2.2 The Project would also comprise the use of the following infrastructure:
- Havant Thicket Reservoir (which has been consented separately by Portsmouth Water and is currently under construction) for the storage of recycled water.
 - The existing Eastney Long Sea Outfall, Eastney Pumping Station, and associated Eastney Transfer Tunnel for the release of reject water from the WRP site.

- Pipelines and other related works (which have been consented separately by Portsmouth Water) for the transfer of recycled water and source water between Bedhampton Springs and Havant Thicket Reservoir.
 - The construction and operation of the Project would be supported by other temporary and permanent works.
- 1.2.3 The Project will require the demolition, disassembly and/or temporary relocation of a number of small structures.
- 1.2.4 A detailed description of the Project can be found in ES Chapter 3 Description of the Proposed Development, Volume I (Document reference 6.1, DCO Volume 6). The Application Glossary (Document reference 1.7, DCO Volume 1) sets out the abbreviations and definitions used in the DCO application for the Project.

1.3 Application Documentation Overview

- 1.3.1 The reports, drawings and plans that make up the application for development consent have been organised into seven volumes as listed in Table 1-1. The seven volumes are explained in more detail in section 1.4.

Table 1-1: Overview of the documentation submitted as part of this application for development consent

| Volume | | Content |
|--------|---------------------------------|---|
| 1 | Application Form | Provides documents to support the application including the: <ul style="list-style-type: none"> • Application Form (Document reference 1.1, DCO Volume 1) • Application Cover Letter (Document reference 1.2, DCO Volume 1) • Guide to the Application (Document reference 1.3, DCO Volume 1) • Section 55 Acceptance of Application Checklist (Document reference 1.4 DCO Volume 1) • Electronic Application Index (Document reference 1.5, DCO Volume 1) • Pre-application Programme Document (Document reference 1.6, DCO Volume 1) • Application Glossary (Document reference 1.7, DCO Volume 1) |
| 2 | Plans and drawings | Contains plans, some of which are required by the relevant regulations to describe the Project, the proposed works and the land required for the project. |
| 3 | Draft Development Consent Order | Outlines the legal powers the Applicant is seeking to enable it to construct, operate and maintain the Project; and a separate document |

| Volume | | Content |
|--------|------------------------------------|---|
| | | – the Explanatory Memorandum to Draft Order (Document reference 3.2, DCO Volume 3) – explains the provisions of the Order. |
| 4 | Compulsory Acquisition Information | Evidence of why the Applicant requires legal powers to compulsorily acquire land, how the Project will be funded and details of the land interests that are required for the construction and operation of the Project. |
| 5 | Reports / Statements | Comprises reports and statements to support the application including details of the pre-application consultation that the Applicant has undertaken on the Project and how consultation feedback has been considered. |
| 6 | Environmental Statement | Provides an assessment of the likely significant environmental effects of the Project on the environment and a description of mitigation measures proposed to reduce any significant impacts. |
| 7 | Other documents | Additional documents that support the application for development consent which aid detailed understanding of the application and its justification. |

Document Numbering Explained

1.3.2 The documents submitted as part of the application follow a consistent numbering format, e.g. 1.1, 1.2, 4.1, 4.2. etc. Wherever possible, the referencing and order of information for documents has followed advice provided by the Planning Inspectorate Nationally Significant Infrastructure Projects: Advice on the Preparation and Submission of Application Documents, Annex A: Order of information submitted with NSIP applications (published August 2024 and last updated March 2026).

1.4 Application Documentation

1.4.1 The Tables 1-2 to 1-8 provide the reference number, document name and a brief description of each application document. References are made, where relevant, to the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended), (APFP Regulations).

Volume 1 – Application Form and related information

Table 1-2: Overview of the documentation submitted as part of Volume 1 – Application Form

| Document Number | Document Name | Description |
|-----------------|--|---|
| 1.1 | Application Form | The Application Form is a standard form as set out in Schedule 2 of the APFP Regulations and provides a high-level summary of the Project and the documents that have been submitted. |
| 1.2 | Application Cover Letter | A brief letter to introduce the application and an Artificial Intelligence (AI) statement in accordance with the Planning Act 2008: Pre-application stage for Nationally Significant Infrastructure Projects (2024). |
| 1.3 | Guide to the Application | Provides a summary of all the application documents (this document). |
| 1.4 | Section 55 Acceptance of Application Checklist | The Section 55 Acceptance of Application Checklist is provided as a self-completed version of the checklist that the Planning Inspectorate use to ensure applications are of a satisfactory standard to be accepted for examination, based upon the criteria set out in s55 of the Planning Act 2008. This checklist indicates where information can be found and can be used as a validation tool to ensure the application includes the prescribed and advised information. |
| 1.5 | Electronic Application Index | The Electronic Index lists the electronic file names for all the application documents. |
| 1.6 | Pre-application Programme Document | The Pre-application Programme Document outlines the planned programme for steps and activities required and undertaken before submitting an application for the Project, as submitted at regular intervals to the Planning Inspectorate during the pre-application stage. |
| 1.7 | Application Glossary | This document sets out terms used within the Project documents and drawings with their meanings. |

Volume 2 – Plans and drawings

Table 1-3: Overview of the documentation submitted as part of Volume 2 – Plans and drawings

| Document Number | Document Name | Description |
|-----------------|---|---|
| 2.1 | Location Plan | A plan showing the location of the Project. |
| 2.2 | Land Plans | The Land Plans, which are required by Regulation 5(2)(i) of the APFP Regulations, identify the land required for and affected by the Project, land over which it is proposed to exercise powers of compulsory acquisition or any right to use land, and in relation to which it is proposed to extinguish easements, servitudes and other private rights. Special Category Land Plans are provided at Document reference 2.6, DCO Volume 2. |
| 2.3 | Works Plans | The Works Plans, which are required by Regulation 5(2)(j) of the APFP Regulations, show the proposed route and alignment of the Project and the limits within which works may be carried out, including Limits of Deviation provided for in the draft Development Consent Order. |
| 2.4 | Access and Public Rights of Way Plans | These plans, which are required by Regulation 5(2)(k) of the APFP Regulations, identify any new or altered means of access, stopping up of streets or roads or any diversions, extinguishments or creation of rights of way or public rights of navigation. |
| 2.5 | Crown Land Plans | The Crown Land Plans identify Crown Land which is affected by the Project, as required by Regulation 5(2)(n) of the APFP Regulations. |
| 2.6 | Special Category Land Plans | The Special Category Land Plans identify the special category land which is affected by the Project, as required by Regulation 5(2)(i)(iv) of the APFP Regulations. |
| 2.7 | Plans of statutory and non-statutory sites or features | These plans identify statutory or non-statutory sites or features of nature conservation such as sites of geological importance, habitats of protected species, important habitats or other diversity features, and water bodies in a river basin management plan that are affected by the Project, as required by Regulation 5(2)(l) of the APFP Regulations. |
| 2.8 | Plans showing statutory or non-statutory historic or scheduled monument sites | These plans identify statutory or non-statutory historic or scheduled monument sites or features that are affected by the Project, as required by Regulation 5(2)(m) of the APFP Regulations. |

| Document Number | Document Name | Description |
|-----------------|-------------------------------|--|
| 2.9 | Tree Preservation Orders Plan | A plan showing Tree Preservation Orders within the Order Limits. |

Volume 3 – Draft Development Consent Order

Table 1-4: Overview of the documentation submitted as part of Volume 3 – Draft Development Consent Order

| Document Number | Document Name | Description |
|-----------------|---------------------------------------|--|
| 3.1 | Draft Development Consent Order | The draft Order, which is required by Regulation 5(2)(b) of the APFP Regulations, sets out the statutory powers that the Applicant is seeking to enable it to construct, operate and maintain the Project. |
| 3.2 | Explanatory Memorandum to Draft Order | The Explanatory Memorandum, which is required by Regulation 5(2)(c) of the APFP Regulations, explains the purpose and effect of each provision in the draft Order, including why that provision is considered necessary. |

Volume 4 – Compulsory acquisition information

Table 1-5: Overview of the documentation submitted as part of Volume 4 – Compulsory acquisition information

| Document Number | Document Name | Description |
|-----------------|----------------------|---|
| 4.1 | Statement of Reasons | The Statement of Reasons, which is required by Regulation 5(2)(h) of the APFP Regulations, explains that there is a compelling case in the public interest which would justify the Applicant's exercise of powers of compulsory acquisition in order to acquire land and rights and to use land temporarily to enable the Applicant to construct, operate and maintain the Project. |
| 4.2 | Funding Statement | The Funding Statement, which is required by Regulation 5(2)(h) of the APFP Regulations as the Order would authorise the compulsory acquisition of interests and rights in land, explains the planned financial arrangements and how the Project would be funded, including any land to be purchased through compulsory acquisition. |
| 4.3 | Book of Reference | The Book of Reference, which is required by Regulation 5(2)(d) of the APFP Regulations, identifies all parties who own or occupy land and/or have an interest in or right over the land affected |

| Document Number | Document Name | Description |
|-----------------|--|--|
| | | by the Project, and/or which may be entitled to make a 'relevant claim' as defined in Section 57 of the Planning Act 2008. It is structured in five parts in accordance with Regulation 7 of the APFP Regulations. |
| 4.4 | Pre-application Land and Rights Negotiations Tracker | A tracker outlining the approach to and status of negotiations with landowners and statutory undertakers during the preapplication process before submitting the application for the Project. |

Volume 5 – Reports and statements

Table 1-6: Overview of the documentation submitted as part of Volume 5 – Reports and statements

| Document Number | Document Name | Description |
|-----------------|--|--|
| 5.1 | Consultation Report | This report, as required by Section 37(3)(c) of the Planning Act 2008, provides an account of the pre-application consultation carried out in relation to the Project. In doing so it provides details of how the Project has had regard to responses received during consultation, including where the development and design of the Project has been amended as a result of this regard. It contains the 2024 Statement of Community Consultation and newspaper notices publicising the application as required by APFP Regulation 4(2). |
| 5.1 | Consultation Report Appendices | The Consultation Report appendices provide evidence of the Applicant's compliance with primary and secondary legislation relating to the pre-application consultation undertaken, evidence of consultation notification, publicity, materials, and response to feedback. The Consultation Report Appendices include Annex 1 and Appendices A – I. |
| 5.2 | Habitats Regulations Assessment – Stage 2 Appropriate Assessment and Marine Conservation Zone – Stage 1 Assessment | This provides the necessary information to undertake an Appropriate Assessment as part of the determination process for the Project. The Habitats Regulations Assessment reports any impacts on European sites under the Conservation of Habitats and Species Regulations 2017 (the Habitats Regulations) and enables an appropriate assessment of the implications to be made. This is required by Regulation 5(2)(g) of the APFP Regulations. It also includes the Habitats Regulations Assessment – Stage 2 Appropriate Assessment and Marine Conservation Zone – Stage 1 Assessment. |

| Document Number | Document Name | Description |
|-----------------|--|--|
| 5.3 | Statutory Nuisance Statement | This statement, in accordance with APFP Regulation 5(2)(f), states whether the Project engages one or more of the matters listed as statutory nuisances in section 79(1) of the Environmental Protection Act 1990, and if so, how the Applicant proposes to mitigate or limit them. |
| 5.4 | Other Consents and Licences Position Statement | This document outlines the other consents and licences likely to be required for the Project and which are not included within the draft DCO, detailing the status and strategy for obtaining them. |
| 5.5 | Planning Policy Statement | This document provides an assessment of the Project against relevant national and local planning policies. The document sets out the overarching planning balance taking all relevant matters into consideration. |
| 5.6 | Case for the Project | This document identifies and sets out the need and case for the Project against relevant legislative and policy tests as well as reporting on the Project legacy and benefits, and how the Project delivers value for money in the context of the Applicant's Water Resources Management Plan. |
| 5.7 | Potential Main Issues for Examination | The document outlines the principal areas of disagreement between the Applicant and stakeholders during the pre-application stage of the Project's application. It provides the Examining Authority with a summary of these issues, reflecting ongoing discussions and the current positions of stakeholders and the Applicant. |
| 5.8 | Draft Statements of Common Ground | These documents are prepared for identified stakeholders (as set out in Table 1.9 and the Electronic Application Index (Document reference 1.5, DCO Volume 1)) involved in the Project to outline matters of agreement or disagreement with the Applicant. Each SoCG sets out a record of engagement undertaken to date, the key agreements reached, and any issues that remain outstanding. |
| 5.9 | Statement of Engagement | This statement details the engagement undertaken with stakeholders to date on the Project, alongside the statutory consultation required under the Planning Act 2008. A Statement of Commonality is appended. |
| 5.10 | Scheme Development Report | This report explains the scheme development process undertaken throughout the evolution of the Project including options and the narrative behind design decisions and iteration of the Project. |
| 5.11 | Design Principles Document | The Design Principles Document for the Project contains the general and site-specific design |

| Document Number | Document Name | Description |
|-----------------|--------------------------|--|
| | | principles that will control the final design following DCO consent. It includes commitments related to site layout, building design and environmental considerations. |
| 5.12 | Design Approach Document | The Design Approach Document explains how the Project has approached good design from inception to DCO submission, having regard to guidance, and provides Project examples. |

Volume 6 – Environmental Statement

Table 1-7: Overview of the documentation submitted as part of Volume 6 – Environmental Statement

| Document Number | Document Name | Description |
|-----------------|-------------------------|--|
| 6.1 ES Volume I | Environmental Statement | <p>The ES outlines the approach to the environmental impact assessment and sets out the assessment findings and likely significant effects the Project, in accordance with APFP Regulation 5(2)(a) and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. It includes assessments of various environmental factors such as biodiversity, water quality, noise, air quality, and socio-economic impacts.</p> <p>The ES contains the following chapters:</p> <ul style="list-style-type: none"> • Chapter 1 Introduction • Chapter 2 Planning legislation and policy • Chapter 3 Description of Proposed Development • Chapter 4 Consideration of alternatives • Chapter 5 EIA approach and methodology • Chapter 6 Air quality and odour • Chapter 7 Archaeology and cultural heritage • Chapter 8 Terrestrial and freshwater biodiversity • Chapter 9 Marine biodiversity • Chapter 10 Carbon and climate change • Chapter 11 Land quality and ground conditions • Chapter 12 Land use and agriculture • Chapter 13 Landscape and visual |

| Document Number | Document Name | Description |
|-------------------|------------------------------------|---|
| | | <ul style="list-style-type: none"> • Chapter 14 Major accidents and disasters • Chapter 15 Noise and vibration • Chapter 16 Resources and waste management • Chapter 17 Socio-economics, tourism and health • Chapter 18 Traffic and transport • Chapter 19 Water environment • Chapter 20 Cumulative and in-combination effects • Chapter 21 Summary of likely significant residual effects • Glossary and abbreviations • Non-Technical Summary |
| 6.2 ES Volume II | Environmental Statement Appendices | <ul style="list-style-type: none"> • ES Volume II comprises the appendices supporting ES Volume I. The Environmental Statement appendices are listed in full in Table 1.9 of this Guide. |
| 6.2 ES Volume III | Environmental Statement Figures | <ul style="list-style-type: none"> • ES Volume III comprises the figures supporting ES Volume I. The Environmental Statement figures are listed in full in Table 1.9 of this Guide. |

Volume 7 – Other documents

Table 1-8: Overview of the documentation submitted as part of Volume 7 – Other documents

| Document Number | Document Name | Description |
|-----------------|--|--|
| 7.1 | Outline Construction Environmental Management Plan | The outline Construction Environmental Management Plan provides a framework for managing and mitigating environmental impacts during construction. It includes the principles and minimum standards required of the contractor. |
| 7.2 | Framework Construction Traffic Management Plan | This plan outlines the approach to managing traffic impacts during construction. It includes the principles and minimum standards required of the contractor. It appends the Framework Construction Worker Travel Plan and Framework Rights of Way Management Plan. The Framework Construction Worker Travel Plan sets out a framework for the establishment of measures to mitigate and reduce the impacts on the road network from construction worker travel. The Framework Rights of Way |

| Document Number | Document Name | Description |
|-----------------|---|--|
| | | Management Plan sets out a framework for the management of rights of way during construction. |
| 7.3 | Traffic Management Strategy | The strategy covers aspects such as traffic control, public safety, and coordination with local authorities to ensure minimal disruption to the surrounding community and infrastructure. |
| 7.4 | Outline Foundation Works Risk Assessment | This document demonstrates that the proposed foundation method by creating new pathways for the migration of contamination, considering the protection of both water resources and human health. |
| 7.5 | Outline Landscape and Ecology Management Plan | This document outlines the management of landscape and ecological elements during construction. |
| 7.6 | Outline Written Scheme of Investigation | The Outline Written Scheme of Investigation provides a framework for managing and mitigating the impacts of construction on archaeological sites. It outlines the approach to both intrusive and non-intrusive recording of known and potential archaeological remains during construction. |
| 7.7 | Operational Environmental Management Plan | Sets the principles and commitments for the control and management of operational and maintenance activities for the Project. |
| 7.8 | Outline Carbon Management Plan | Outlines the carbon strategic objective and sets out the carbon management processes and a framework for the types of carbon mitigation measures to ensure carbon emissions are as low as reasonably practicable. |
| 7.9 | Outline Skills and Employment Plan | Provides a framework for how the Project will enable skills and employment benefits for local people and businesses during construction and operation. |
| 7.10 | Invasive Non-Native Species INNS Biosecurity Plan | Sets out the potential INNS impact pathways and details how the Project will ensure that these pathways are removed to prevent the release of INNS to the environment. |
| 7.11 | Biodiversity Gain Plan | Outlines the approach to ensuring that habitats for wildlife are left in a measurably better state than they were before the Project. It includes the methodology and assumptions used in the application of the biodiversity metric, the results of the quantitative biodiversity metric calculations, and a qualitative assessment of the biodiversity outputs from the Project. The report also sets out the current legislation, policy, and guidance for delivering biodiversity net gain. Appended to the Plan is the Habitat Management and Monitoring Plan |

| Document Number | Document Name | Description |
|-----------------|----------------------------------|--|
| 7.12 | Environmental Net Gain Statement | The ENG Statement reports how opportunities for delivering ENG were considered through the different stages of Project development and where this has influenced or been incorporated into the design. It also provides detail on the methods and results of the ENG assessment covering expected natural capital impacts (both positive and negative) associated with the Project; and sets out what ENG-related measures the Applicant is committing to. |
| 7.13 | Equality Impact Assessment | The Equality Impact Assessment assesses and reports on the potential for the Project to discriminate based on certain protected characteristics under the Equality Act 2010 and the associated Public Sector Equality Duty |
| 7.14 | Protected Species Licensing | Includes the draft protected species licence applications for badger and hazel dormouse which set out how licensable work and mitigation will be delivered for the project. It also includes Letters of No Impediment for each of these applications which confirm that Natural England envisages no obstacles to the licences being granted on full application prior to the start of construction. A District Licence Report from NatureSpace is also included, which confirms that a District Licence can be issued for the Project and sets out the context that has been used by NatureSpace to establish this. |

1.5 Master Document List and Revision History

1.5.1 Table 1-9 provides a full list of application documents submitted at application submission. The table will be used as a 'Living Document' during Examination, capturing all updates and revisions to the application documents. This will include updating the two right-hand columns, with the last deadline the document was submitted to PINS and the deadline date.

Table 1-9: Master Document list detailing revision history for all application documentation
