Dear Matthew

In reviewing for RR, Southern Water noticed that paragraph 7.2 on page 17 of our RR was incomplete - please see below:

7.2 The element of the proposed pipeline that would be routed through land within the jurisdiction of Portsmouth City Council runs from the Water Recycling Plant to Portsdown Hill (Section D), and is considered, in the context of the scheme overall, to be relatively modest. Notwithstanding this, it is notable that

The complete paragraph is as follows:

7.2 The element of the proposed pipeline that would be routed through land within the jurisdiction of Portsmouth City Council runs from the Water Recycling Plant to Portsdown Hill (Section D), and is considered, in the context of the scheme overall, to be relatively modest. Notwithstanding this, it is notable that **Portsmouth, has still been selected to accommodate what is probably one of the largest and, potentially (depending on finished design and viewpoint) most impactful features across the whole length of the project**

Please could you advise whether you would like us to submit a corrected RR or would you publish an errata slip / correction note with this correction on it?

I look forward to hearing from you.

Kind regards

[REDACTED]

IN RESPECT OF THE HAMPSHIRE WATER TRANSFER AND WATER RECYCLING PROJECT

PINS Ref.: WA010002-000010-230725 - Application by Southern Water Services Limited (the Applicant) for an Order granting Development Consent for the Hampshire Water Transfer and Water Recycling Project (the Proposed Development)

INTERESTED PARTY STATUS: Host Local Authority
AUGUST 2026

**** CORRECTION NOTE ****

Please note the following correction:

As submitted, Paragraph 7.2 was incomplete:

7.2 The element of the proposed pipeline that would be routed through land within the jurisdiction of Portsmouth City Council runs from the Water Recycling Plant to Portsdown Hill (Section D), and is considered, in the context of the scheme overall, to be relatively modest. Notwithstanding this, it is notable that

It should read as follows (missing section in bold):

7.2 The element of the proposed pipeline that would be routed through land within the jurisdiction of Portsmouth City Council runs from the Water Recycling Plant to Portsdown Hill (Section D), and is considered, in the context of the scheme overall, to be relatively modest. **Notwithstanding this, it is notable that Portsmouth, has still been selected to accommodate what is probably one of the largest and, potentially (depending on finished design and viewpoint) most impactful features across the whole length of the project**
