Submission ID: S11EA1BFD

This submission is a 1500-word version of our original Written Representation submitted 14/08/26, which did not include a Summary at the time. Rather than produce a short Summary of the original 5300-word document that would have not covered the range of issues raised I have reduced the original to 1500 Words to retain most of the Key Points that would otherwise be lost in a Summary. The original document remains for reference should that be required. I trust this meets the requirement on written representations.
