To whom it may concern,

I am writing to bring to your attention that we were not made aware of the impacts of this proposal and are asking for our comments to be considered as part of the inspection.

We are the [redacted] (see highlighted map below) [redacted] and I would like to highlight some major issues I believe have been overlooked in this process.

1. At no point were we consulted about this proposed project and its impact on the area – The working hours are simply just unacceptable – working hours from 7am to 7pm and weekends gives us no rest from the constant noise and traffic that will be caused by the heavy goods vehicles
2. The access point on Church Lane is on a blind bend just as it increases from 30 to 40 mph – this is an accident waiting to happen
3. I personally have no faith in Southern Water and do not want to be drinking recycled sewage water – this is going to result in a lot of people buying bottled water and increase single use plastics as well as individual costs

In my opinion this is an ill thought through proposal and should be rejected by the inspector.

Kind regards,

Pete Merritt
