Canal Transfer

Grand Union Canal Transfer

Environmental Impact Assessment Scoping
Report

Volume 2: Figures

Part 1 of 11

Affinity Water, Severn Trent and Canal & River Trust

March 2025

Prepared for:

Affinity Water, Severn Trent and Canal & River Trust

Prepared by:

AECOM Limited

© 2025 AECOM Limited. All Rights Reserved.

This document has been prepared by AECOM Limited ("AECOM") for the primary use of Affinity Water (the "Client") and for the agreed benefit of Severn Trent and the Canal & River Trust (the 'Trust') in accordance with generally accepted consultancy principles. Any information provided by third parties and referred to herein has not been checked or verified by AECOM, unless otherwise expressly stated in the document. No third party may rely upon this document without the prior and express written agreement of AECOM.

Contents

Figure 1-1: Proposed Development Overview

Figure 3-1: Part 1 Environmental Constraints Plan

Figure 3-2: Parts 2 & 3 Environmental Constraints Plan

Figure 3-3: Part 4 Environmental Constraints Plan

Figure 3-4: Part 1a Minworth AWTP Indicative Layout Plan

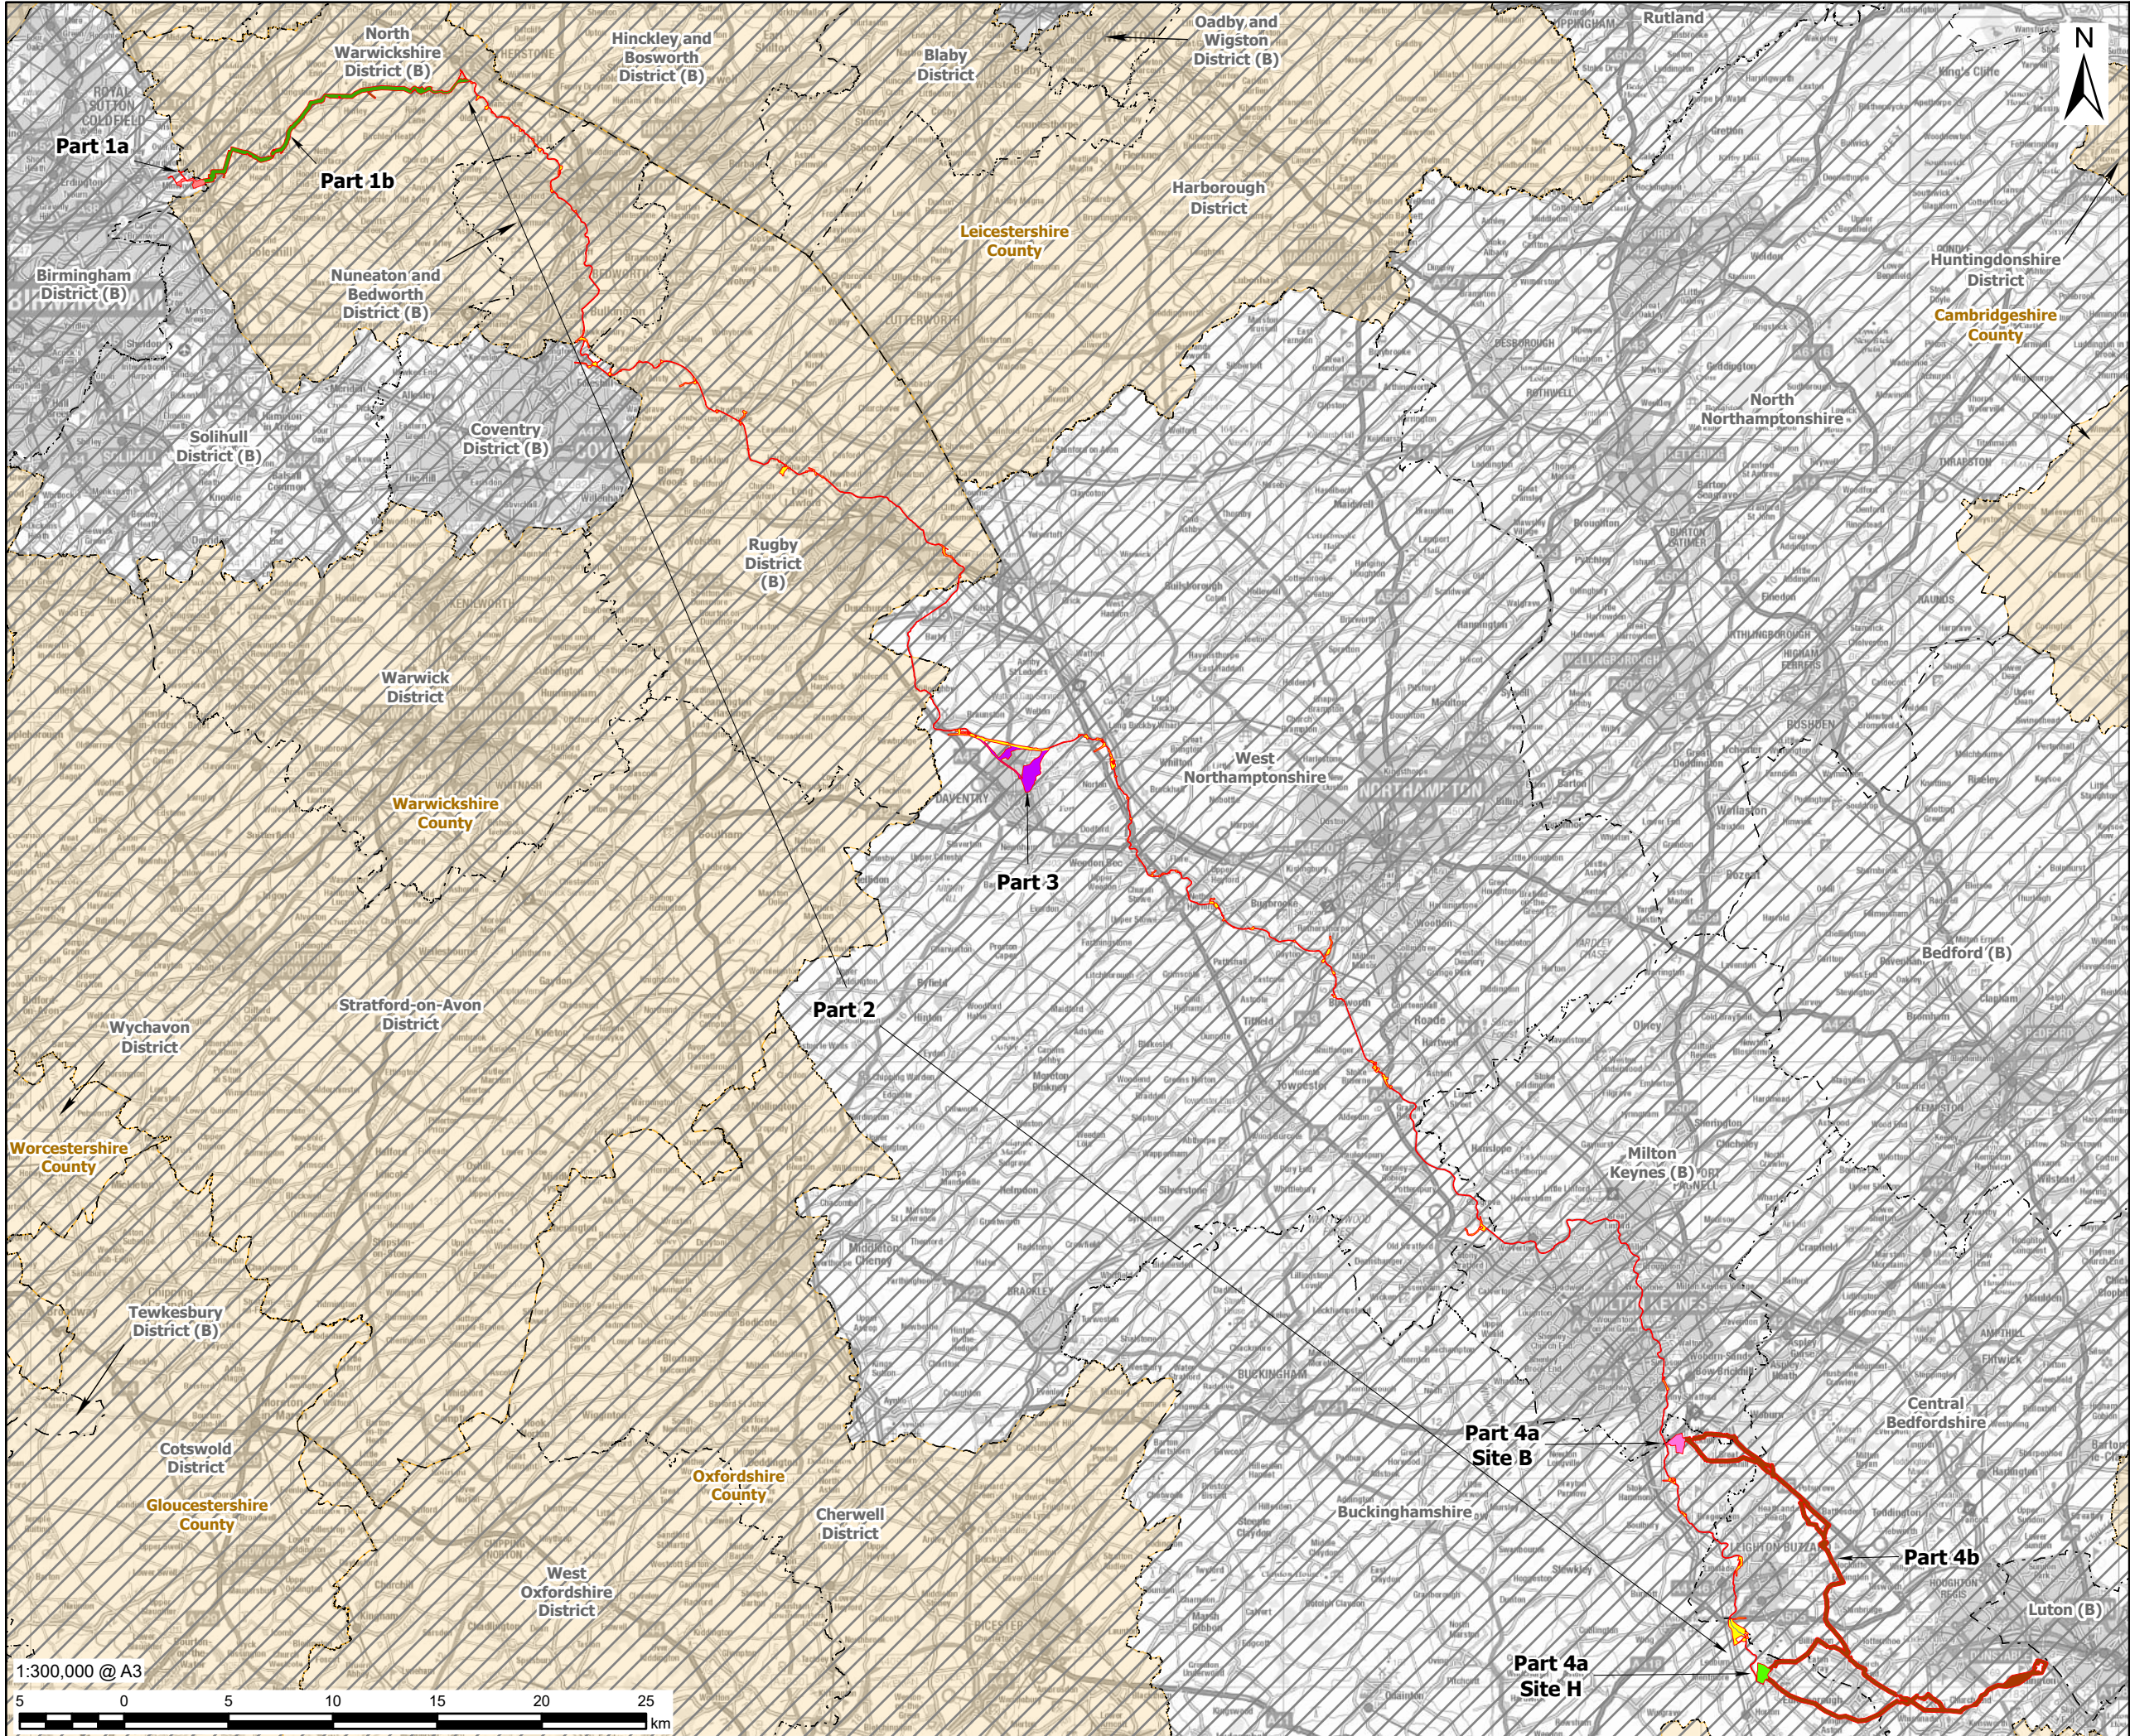

**Figure 3-5: Part 1b Minworth to Atherstone Pipeline Indicative
Layout Plan**

Figure 3-6: Parts 2 & 3 Canal Network Indicative Layout Plans

Figure 3-7: Part 4 Indicative Layout Plan

An EIA Scoping Boundary has been adopted for the purposes of seeking input as to how the environmental assessment of the Proposed Development will be carried out and is included on a number of the Figures presented in Volume 2 of this EIA Scoping Report. These Figures are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final DCO limits (red line) for the application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints, will be excluded from the DCO limits (red line) where possible. The DCO limits as refined will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025/ Q1 2026).

NOTES

- These plans show the EIA Scoping Boundary which has been adopted for the purposes of seeking input as to how the environmental assessment of the Proposed Development will be carried out. These are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final Order limits (red line) for the DCO application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints will be excluded from the Order limits, where possible. The Order limits, as refined, will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025 / Q1 2026).

 Historic Landfill Site

 Flood Zone 2

 Flood Zone 3

NOTES

1. These plans show the EIA Scoping Boundary which has been adopted for the purposes of seeking input as to how the environmental assessment of the Proposed Development will be carried out. These are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final Order limits (red line) for the DCO application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints will be excluded from the Order limits, where possible. The Order limits, as refined, will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025 / Q1 2026).

2. Reproduced from Ordnance Survey digital map data © Crown copyright and database rights 2025 OS 100025261.

3. Contains Ordnance Survey Data © Crown Copyright and database right 2025.

4. © Natural England material is reproduced with the permission of Natural England 2025.

5. © Historic England 2025. The Historic England GIS Data contained in this material was obtained on 23/12/2024. The most publicly available up to date Historic England GIS Data can be obtained from HistoricEngland.org.uk. Conservation areas supplied by various historic environment record centres.

NOTES

- These plans show the EIA Scoping Boundary which has been adopted for the purposes of seeking input as to how the environmental assessment of the Proposed Development will be carried out. These are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final Order limits (red line) for the DCO application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints will be excluded from the Order limits, where possible. The Order limits, as refined, will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025 / Q1 2026).

These are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final Order limits (red line) for the DCO application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints will be excluded from the Order limits, where possible. The Order limits, as refined, will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025 / Q1 2026).
- Reproduced from Ordnance Survey digital map data © Crown copyright and database rights 2025 OS 100025261.
- Contains Ordnance Survey Data © Crown Copyright and database right 2025.
- The extent of canal bank raising is subject to further modelling and will likely be refined and reduced as a result.

Sites B and H will include the following infrastructure:
Weir to abstract water from Grand Union Canal;
A new pumping station;
Water storage;
Water treatment works;
Electrical buildings and kiosks for new power supply;
Other associated above and below ground works, including pipework and landscaping;
Access roads and car parking; and
Temporary construction working areas and compounds.
