Environmental Impact Assessment Scoping Report

Volume 2: Figures

Part 8 of 11

Affinity Water, Severn Trent and Canal & River Trust

Prepared for:

Affinity Water, Severn Trent and Canal & River Trust

Prepared by:

**AECOM Limited** 

© 2025 AECOM Limited. All Rights Reserved.

This document has been prepared by AECOM Limited ("AECOM") for the primary use of Affinity Water (the "Client") and for the agreed benefit of Severn Trent and the Canal & River Trust (the 'Trust') in accordance with generally accepted consultancy principles. Any information provided by third parties and referred to herein has not been checked or verified by AECOM, unless otherwise expressly stated in the document. No third party may rely upon this document without the prior and express written agreement of AECOM.

## **Contents**

Figure 21-1: Safeguarded Mineral and Waste Sites, Historic and Authorised Landfills, Permitted Waste Sites and Waste Site Applications

An EIA Scoping Boundary has been adopted for the purposes of seeking input as to how the environmental assessment of the Proposed Development will be carried out and is included on a number of the Figures presented in Volume 2 of this EIA Scoping Report. These Figures are not consenting/planning application plans. The EIA Scoping Boundary is wider than the final DCO limits (red line) for the application. Inclusion in this EIA Scoping Boundary does not mean that any feature or individual building is anticipated to be affected by physical works, please see the project description for detail. Existing buildings and other identified constraints, will be excluded from the DCO limits (red line) where possible. The DCO limits as refined will be published and consulted on in the next stage of public consultation (currently expected to be Q4 2025/ Q1 2026).
